CONFUSION IN

Violent Liquidation for Pittsburg Account Throws Wall Street Into Fever.

New York, Oct. 23 .- Violent perturbation in today's stock market was taken for granted, in view of the serious nature of the day's news, both from the trust companies and the industrial field. The sensitiveness of the market as a barometer of conditions might have left it open supposedly to even more serious violence, in view of the character of the news. As a matter of fact there was a considerable and conspicuous fragment of the list of securities which was but slightly affected by the acute depression at other points and by the severe stringency of money. The resistance of these points in the list must have been due to protective measures by money resources adequate to effect this end. Their comparative stability western Union 300 suggested something of suspense, also, in suggested something of suspense, also, in the attitude of waiting for the working Wis. Central 100 the attitude of waiting for the working out of measures to fortify the situation. The eager attention of the whole of the financial community converged on the progress of these measures, or on what might be the final decision of the great financial banking powers who had the matter in hand. It was felt that on the decision of these conferences might hinge the restriction of the field of the troubles which have thrown confusion into financial affairs. The failure of the Knickerbocker Trust company to reopen

 financial affairs. The failure of the Knickerbocker Trust company to reopen its doors today and the new run precipitated on the Trust Company of America by its request for assistance from other institutions offered the surface evidence of the trouble.

and the reported embarrassment of industrial companies as a cause.

The direct force of this latter factor on the stock market was a testimony of the importance of Pittsburg in speculative activity. Sales of various stocks for Pitts-burg account in New York were enormous and made a prime influence in the weak-ness of the day. Westinghouse Electric, for which the market is narrow at any time, was slaughtered during the urgent

The came the announcement of the closing of the Pittsburg stock exchange

The reported financial embarrassment of the company was the sufficient explana-tion. General Electric was in close sym-pathy, owing to the analagous business field of the two companies. The effect of the Westinghouse incident was particularly sexvere on the industrial securities generally and many of these disclosed the artificial character of the quotations which have been established for them and the narrow market existing for any

genuine liquidation in them.

Support in this part of the list seemed out of the question. People who find themselves involved in these unmarketable stocks, are forced to liquidate other securities to securities to the securitie securities to pay off loans. It was borrowing of an urgent situation, such as this, that forced the high call loan rate at the stock exchange. A rate of 90 per cent was made on a small call loan. Apparently the fears of the effect from a contraction of credits applied more to encontraction of credits applied more to en-terprises of an industrial nature than to the transportation business, and sensa-tional declines were made in a large num-ber of inactive stocks of all descriptions, In spite of the hasty fortifying of re-serves, which was going on, many power-ful banks renewed standing call loans at 6 per cent, and at other rates materially below the 70 per cent, which was called the ruling rate. The supplying of funds in this way was part of the far reaching policy in force to keep down panic and to save the situation.

to save the situation.

The sub-treasury statement showed a The sub-treasury statement showed a gain by the banks from that institution of \$4.311,000 on yesterday's operations, and it was known that the presence at the government institution of the secretary of the treasury insured additional relief measures by the government to safeguard the position. It was credibly reported that \$10,000,000 of government funds were deposited with the New York banks during the day. The knowledge of this fact, the continuance throughout the day of payments to depositors by the Trust Company of America and the fact that nothing like a run developed on any other institution dispersed the gloomy clouds which overhung men's minds. The substantial rally in stocks during the later part of the day was the reflection of this. The further course of events in the trust company situation is regarded yet as the

part of the day was the reflection of this. The further course of events in the trust company situation is regarded yet as the crucial test of the position.

Bonds were very weak. The Westinghouse convertible bonds shared in the demoralization of the stock market and other convertible and speculative issues made wide declines. Total sales, par value, \$4,126,000. United States bonds were unchanged on call.

GRAIN AND PROVISIONS. Chicago, Oct. 23.-A large export business today offset the demoralized condition in the stock market and caused a strong close to the wheat market here. The final quotations left December wheat

11%c higher. Corn was up %@%c. Oats were ½c lower. Provisions were 17½ to 32½c lower.

The wheat market was nervous all day and had many sharp declines and up-turns. Two important influences strug-gled for the control. The one was the gled for the control. The one was the eastern financial situation and the local fear of possible complications growing out of it, the other being the strength of the foreign markets and the evident disposition of foreigners to buy. Late in the day the bullish influence gained the upper nand and the market closed strong and higher. It was reported today that all offers of cash wheat made last night had been accepted by foreign buyers, and the bids for more were numerous and all offers of cash wheat made last night had been accepted by foreign buyers, and the bids for more were numerous and frequently higher. The cash markets at Kansas City, Minneapolis and Duluth were also reported as strong. There was evidence also that the heavy selling of yesterday was largely the shorts who were anxious to cover today. The tight money market in the northwest caused some selling in that direction, which had some selfect here. December wheat opened unchanged to ½c higher at 99% to 94%c, sold between 99¼c and \$1.01% and closed strong at \$1.01½. Clearances of wheat and flour were equal to 737,000 bushels. Primary receipts were 1.138,000 bushels, against \$87,000 on the same day last year. Minneapolis, Duluth and Chicago reported receipts of 609 cars, against 618 cars last week and 536 cars a year ago.

The corn market in general followed the lead of wheat, although the situation in the cash market was different. December corn opened ½c lower to ½c higher at 57¼ to 57½c, sold between 57¼ and 58¼c. Local re-

ceipts were 192 cars, with fifty-four of contract grade.

The oats market was tame all day. December oats opened ½ to %c lower at 51½ to 51½c, sold between 50% 250% and 51½c and closed at 51½c. Local receipts were 205 cars.

The trade in provisions was large, but at a lower level tnan for some time. A final break of 25 to 30c in the price of live hogs at the stockyards left the market without strong support. January pork closed 32½c lower at \$14.47½. Lard was off 30c at \$8.40. Ribs were down 17½c at \$7.52½.

Estimated receipts for tomorrow: Wheat, 76 cars; corn, 357 cars; oats, 309 cars; hogs, 18,000 head.

Stop Koffing

We carry everything known that will stop a cough—medicated candy lozenges, tablets, syrups, etc. Our Blue Ribbon remedy has no equal. The old idea, hot mustard foot baths with Rock Rye in liberal doses, sounds good to many. A chest protector will assist by keeping the keen winds off the lungs. Our remedies cure both the old and young. Both 'phones 457 Received. young. Both 'phones 457. Remember the number.

A good liniment or plaster, or some good home remedy will usually give temporary relief from the pain of Rheumatism, but the disease is more than skin deep and cannot be rubbed away, nor can it be drawn out with a plaster. Such treatment neither prevents nor cures; the excess of acid, which produces Rheumatism, is still in the blood and the disease can never the still the simulation. be cured while the circulation remains saturated with this irritating, pain-producing uric acid poison. The trouble will shift from place to place, settling on the nerves and causing pain and inflammation at every exposure or after an attack of indigestion or other irregularity. When neglected or improperly treated, Rheumatism becomes chronic and does not depend upon climatic conditions to bring on an attack, but remains a constant, painful trouble. S. S. S drives out Rheumatism by neutralizing and expelling the excess of acid from the blood. It purifies and invigorates the circulation so that instead of an acid-laden stream, constantly depositing uric acid in the joints, muscles, nerves and bones, the entire system is nourished and made healthy by rich, life-giving blood. Book on Rheumatism and any medical advice desired will be sent free to all who write.

THE REASONS"

•••••••••

Of all collectors of honest debts the Merchants' Protective Association leads both at home and abroad, for the very simple and convincing reasons that they have discovered that "red streaks of honesty" exist in everybody, and that they have the essential knack of making the debtor feel that "now is the time to pay." All in all, it is the stick-to-itiveness of this association that has gained for it its world-wide reputation and present condition. Yours respectfully,

MRS. F. C. COCHRAN, 1010 West Eighth South, City.

Four Diseases That

Wreck Men

This is an enlarged condition of the veins (usually more noticeable on the left side) caused by mumps, bicycle riding and dissipation. In time it saps a man's physical and mental strength if neglected or improperly treated.

WE CURE IT IN 5 DAYS by absorption, without pain.

NERVOUS DEBILITY. NERVOUS DEBILITY.

Do you feel that you are not the man you once were? Do you feel tired in the mornings and easily exhausted? Is your back lame? Is your memory failing? Do you have difficulty in concentrating your thoughts? Do you notice a loss of ambition? If you suffer from any or all of the above symptoms you certainly do not desire to remain so. What you want is to be made strong and vigorous mentally and physically, as nature intended.

WE CURE IT IN 10 TO 30 DAYS. Quickresults, lasting cures.

BLOOD POISON. may be either hereditary or contracted. The former causes ec-zema, rheumatic pains, scrofula, etc. The latter begins with a small pimple, followed by sores in the mouth and throat, which have the appearance of white patches, spots or sores on the body, face or scalp, falling hair and eyebrows, and later on other terrible symptoms, such as paralysis or locomotor ataxia, cancerous growths, decayed bones and flesh. WE OVERCOME it in 90 DAYS. Symptoms disappear in 1 to 3
